“How many people  
are singing  
in Europe?”

We don't know either!  
Help us find out!

If you sing **with other people** (in a choir, an ensemble, a vocal band, with friends, etc.) please help us and answer our short **online survey** at

[www.singingeurope.org](http://www.singingeurope.org)

*singing europe* is a non-commercial, community driven, pilot research programme to produce reliable statistical data on "people singing together". This knowledge will help national and European organisations set up programmes that better address the needs of the singing community and convince policy makers to support it.

*singing europe* is part of the project  
**VOICE** "Vision On Innovation for Choral music in Europe",  
coordinated by the  
European Choral Association - Europa Cantat,  
with the support of the  
Culture programme of the European Union.
